

Students Supporting Schools Enhanced (S3+)

If you want to hone your job skills while in school—and be paid for many of the positions—and you will be a sophomore, junior or senior (next school year), then here is an opportunity for you.

E1 Technical Support

- Provide Level 1 technical support at the student's high school during school hours
- Enroll in an internship course that earns high school credit
- Requires good communication, interpersonal, personal management, and problem-solving skills; technology skills are taught
- Open to sophomores, juniors, and seniors
- Non-paid position

E2 Technical Support

- Provide Level 1 technical support at an elementary school during school hours
- Enroll in an internship course that earns high school credit
- Requires good communication, interpersonal, personal management, and problem-solving skills; technology skills are taught
- Open to juniors and seniors, with reliable transportation
- Paid position (\$15/hour)

Auditorium Sound-booth Technician

- Provide, when needed, sound-booth support in the high school auditoriums either after school or on the weekend
- Requires good communication, interpersonal, personal management, and problem-solving skills; technology skills are taught
- Open to juniors and seniors, with reliable transportation
- Paid position (\$15/hour)

Graphic Designer

- Conceptualize and develop design solutions to market the District's brand, working after school
- Requires graphic designing skills and technical proficiency (Adobe Creative Suite); good communication, interpersonal, personal management, and problem-solving skills
- Open to juniors and seniors, with reliable transportation
- Paid position (\$15/hour)
