

District Devices & Remote Learners

- If your student has not yet signed out their district device, you may visit our front office to sign out, M - F 8 – 4:30 pm.
- Personal devices must have their OS/browsers updated.

Our testing platform is compatible with Chrome 83+, Firefox 60+, the new Microsoft Edge, and Safari versions 11-12. The quickest way to check these devices is to have the student use the APM link within the testing folder in Classlink which will bring them to the login screen. If they receive the login box without error their personal device is all set. If they receive the same “Unsupported OS/Browser” error, they can use the following instructions to update their browsers on their personal devices:

[Chrome Update](#)

[Safari Update](#)

[Firefox Update](#)
