

Cell Phones/Wireless Communication Devices and BYOD Program

The possession of a cellular telephone or any type of wireless communication device is not, in it of itself, a violation of the Student Conduct and Discipline Code (SCDC). Students are allowed possession of cell phones; however, when the cell phone disrupts the educational process, the cell phone is used on a school campus during school hours (between 8:39 a.m.-2:45 p.m.), or the cell phone is used while a student is being transported on a school district-owned vehicle, then it would be a violation of the SCDC. For the purpose of this code, “use” is defined as permitting the device to be in plain sight during the prohibited times and in the locations described above. When it is determined that use has occurred in violation of this policy, then the device will be confiscated and returned to the parent upon his/her request. Use of a wireless communication device in violation of this policy includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act.

We do have a Bring Your Own Device Program that allows students to connect to the District Wireless Network and Internet for classroom use. A student must complete and submit a Form #356 (provided in student’s first day packet) to participate in the BYOD program.
