

# MCS D Summer Opportunities for Learning

## Jensen Beach Elementary

### JBE Summer Learning Enrichment

Grade level Google Classrooms will remain open throughout the summer. New learning activities will be posted each Monday. This is a unique opportunity to maintain connections with classmates and staff through live personal interactions and feedback via the Google Classroom. Our goal is to narrow the gap caused by distance learning and address social emotional needs of students who may feel isolated or disconnected over the summer. Just a few minutes a day can make a BIG difference. Log-in to see your JBE Family and keep your skills sharp this summer!
