

The Martin County School District has added text messaging to our parent notification system. Schools will now be able to deliver text messages straight to parents' mobile phones with important information about events, school closings, safety alerts and more!

All texts sent by the District or schools will come from one of the following short codes:

- 53291
- 23177
- 63079
- 82931

Standard text messaging rates from your mobile carrier will apply to any messages you receive. Please be sure to follow the 'opt out' prompt if you do not wish to receive text messages from the Martin County School District or any District-operated schools.
