These planned agendas are designed to keep you in the loop with specific aspects of your children’s academic lives that may impact them at school and possibly at home. The design is that we share something with parents for a few minutes and you get the rest of the time as an open floor to ask the Principal specific or open-ended questions. Please mark your calendars and attend. We want to eliminate hearsay and make sure that what you know you heard from us, not random perspectives. Join us in building this bridge from school to home and help us share our story from your own experience.
